NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of accounting policies for eFoodSafety.com, Inc. & Subsidiaries is presented to assist in understanding the Company's consolidated financial statements. The accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of the consolidated financial statements.

Interim Financial Statements

The unaudited consolidated financial statements for the three months ended July 31, 2007 reflect, in the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to fairly state the financial position and results of operations for the three months ended July 31, 2007 and 2006. Operating results for interim periods are not necessarily indicative of the results which can be expected for full years.

Organization and Basis of Presentation

The Company was incorporated in Nevada on October 28, 1996 as DJH International, Inc. to market products through the Internet. On October 16, 2000, the Company entered into an agreement and plan of reorganization with Global Procurement Systems, Inc. ("GPS") whereby the Company acquired GPS. This business combination was accounted for as a reverse merger with GPS being the surviving entity for financial reporting purposes. As a result of the acquisition, the Company issued 37,620,000 shares of common stock in exchange for the outstanding shares of GPS and changed its name to eFoodSafety.com, Inc.

On October 29, 2003, the Company issued 1,500,000 restricted shares of common stock to acquire Ozone Safe Food, Inc. As of October 29, 2003, Ozone Safe Food, Inc. was a wholly owned subsidiary of the Company. On August 24, 2005, the Company sold Ozone Safe Food, Inc. for 1,500,000 shares of the Company’s common stock and an agreement to receive royalty payments through December 31, 2008 on up to $60 million in sales

In May 2004, the Company issued 1,000,000 restricted shares of common stock to acquire Knock-Out Technologies, Ltd. ("Knock-Out") as a wholly-owned subsidiary of the Company. Knock-Out is a manufacturer of all-natural, non-toxic, food-grade products.

On August 31, 2005, the Company issued 10,000,000 restricted shares of common stock to acquire MedElite, Inc. as a wholly-owned subsidiary of the Company. MedElite distributes clinically proven products to physicians who then prescribe the products for their patients. It is the exclusive US distributor of the Talsyn product line.

In November 2006, the Company formed Cinnergen, Incas a wholly-owned subsidiary. Cinnergen, Inc. manufactures a non-prescription liquid whole food nutritional supplement that promotes healthy glucose metabolism.

In November 2006, the Company formed PurEffect, Inc. for its PurEffect(TM) 4-step anti-acne formula.

In July 2007 the Company formed I-Boost Inc which will make and distribute a food bar designed to improve the immune system.

Nature of Business

The Company was organized as a vehicle to provide methods and products to ensure the safety of fruits and vegetables being marketed worldwide. With the sale of Ozone Safe Food, Inc. the Company changed direction to become a company dedicated to improving food and health conditions around the world through its innovative technologies. The Company's Knock-Out Technologies, Ltd. subsidiary has developed an environmentally safe sporicidal product formulated entirely of food-grade components that eradicates anthrax and a germicidal product, Big 6 Plus - EPA Reg. No 82723-1 that kills six major bacteria: E-coli, Listeria, Pseudomonas, Salmonella, Staphylococcus, and Streptococcus, Avian Influenza and Black Mold. The sporicidal product has completed its final efficacy laboratory study requisite for EPA registration. The Company's MedElite, Inc. subsidiary distributes clinically proven products to physicians who then prescribe the products for their patients. It is the exclusive U.S. and worldwide distributor of the Talsyn(TM)-CI/bid Scar Cream that has been clinically proven to facilitate and improve the appearance, redness and strength of scars. The Company manufactures Cinnergen(TM), a non- prescription liquid whole food nutritional supplement that promotes healthy glucose metabolism and is the owner of PurEffect(TM), a 4-step anti-acne formula.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Pervasiveness of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles required management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Business Condition

These accompanying consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. As of July 31, 2007, the Company has accumulated operating losses of $20,556,054 since its inception. The continuation of the Company is dependent upon the continuing financial support of directors and stockholders as well as becoming profitable.

These conditions raise substantial doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments that might arise from this uncertainty.

Principles of Consolidation

The consolidated financial statements for the period ended July 31, 2007 include the accounts of eFoodSafety.com, Inc. and its subsidiaries ., Knock-Out Technologies, Ltd., and MedElite, Inc, Cinnergen, Inc., and I Boost Inc. Knock-Out Technologies, Ltd. was acquired by the Company in May 2004. MedElite, Inc. was acquired by the Company on August 31, 2005. Cinnergen, Inc. was formed as a wholly owned subsidiary on November 27, 2006. and I Boost was formed as a wholly owned subsidiary July 2007.

All significant intercompany balances and transactions have been eliminated.

Revenue Recognition

The Company reports revenues on a net basis. Revenues are from net gross sales of Cinnergen, predominately and Medelite.

Concentration of Risk

As of July 31, 2007, the majority of the Company's revenues are from the sale of Cinnergen. The loss of this product would have an adverse effect on the Company's operations.

Depreciation

Office furniture and equipment are stated at cost. Depreciation and amortization are computed using the straight-line method over the estimated economic useful lives of the related assets as follows:

Furniture & Fixtures 5-10 years Equipment 5- 7 years Computers 3- 5 years

Maintenance and repairs are charged to operations; betterments are capitalized. The cost of property sold or otherwise disposed of and the accumulated depreciation thereon are eliminated from the property and related accumulated depreciation accounts, and any resulting gain or loss is credited or charged to income.

Total depreciation expense for the periods ended July 31, 2007 and 2006 was $843 and $339, respectively.

Earnings (Loss) per Share

Basic loss per share has been computed by dividing the loss for the year applicable to the common stockholders by the weighted average number of common shares outstanding during the years. There were no common equivalent shares outstanding at July 31, 2007 and 2006.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Concentration of Credit Risk

The Company has no significant off-balance-sheet concentrations of credit risk such as foreign exchange contracts, options contracts or other foreign hedging arrangements. The Company maintains the majority of its cash balances with one financial institution, in the form of demand deposits.

Comprehensive Income

The Company recognizes as a component of equity unrealized gains or losses on securities.

Investment in Marketable Securities

The Company on May 3, 2007 received as a capital contribution from a shareholder 1,000,000 shares of a publicly traded Company. The shares were valued at market on that date of .11 per share. At July 31, 2007 the shares at market closed at .044 per share. The Company has recognized an unrealized loss on securities for the difference and recorded net of tax as a component of other comprehensive income.

Investments in securities are summarized as follows:

	July 31, 2007		
	Gross Unrealized Gain	Gross Unrealized Loss	Fair Value
Available-for-sale securities	$ -	$ 66,000	$ -

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Continued)

NOTE 2 - INCOME TAXES

As of July 31, 2007, the Company had a net operating loss carryforward for income tax reporting purposes of approximately $19,000,000 that may be offset against future taxable income through 2025 Current tax laws limit the amount of loss available to be offset against future taxable income when a substantial change in ownership occurs. Therefore, the amount available to offset future taxable income may be limited. No tax benefit has been reported in the financial statements, because the Company believes there is a 50% or greater chance the carryforwards will expire unused. Accordingly, the potential tax benefits of the loss carryforwards are offset by a valuation allowance of the same amount.

NOTE 3 – ACCOUNTS RECEIVABLE

The Company recognizes a receivable on sales of its Cinnergen product which commenced in the fourth quarter of the previous fiscal year. The Company’s experience has been that all receivables have been collected and therefore a reserve for doubtful accounts has not been established.

NOTE 4- INVENTORY

The Company values its inventory, finished product of the Cinnergen product, under the fifo method , valued at lower of cost or market.

NOTE 5 - COMMON STOCK TRANSACTIONS

For the period ended July 31, 2007 the Company issued 1,950,000 shares of its common stock. 1,350,000 for cash of $259,500 and 600,000 shares for professional services valued at market of $218,650.

NOTE 6 - RENT AND LEASE EXPENSE

In August 2005, MedElite, Inc., a subsidiary of the Company, entered into a lease agreement for office space at 668 Woodbourne Road, Suite 109, Middletown, Pennsylvania. The lease is effective October 31, 2005 and expires on October 31, 2008. The lease payments per month are $1,033 for the first year, $1,064 for the second year, and $1,096 for the third year. The Company’s three other leases total $750 per month and are leased on a month-to-month basis.

The minimum future lease payments under these leases are:

Year Ended April 30,	Real Property
2008	16,326
2009	15,576
2010	-
2011	-
Total minimum lease payments	$ 31,902

The lease generally provides that insurance, maintenance and tax expenses are obligations of the Company. It is expected that in the normal course of business, leases that expire will be renewed or replaced by leases on other properties.

NOTE 7- RELATED PARTY TRANSACTIONS.

At July 31, 2007, the company has advanced to an officer amounts greater than contributed in the amount of $56,191 The officer intends to repay this amount during the fiscal second quarter of 2008.

The shares were used to eliminate $300,000 of the Company's debt**.**

On August 31, 2005, the Company acquired MedElite, Inc. from Dr. Richard Goldfarb in exchange for 10,000,000 shares of the Company's common stock, plus potential bonuses of restricted shares if certain sales/revenue benchmarks are achieved. MedElite distributes clinically proven products to physicians who then prescribe the products for their patients. It is the owner and exclusive U.S. distributor of the Talsyn(TM) product line that has been clinically proven to facilitate and improve the appearance, redness and strength of scars. The Company recognized goodwill of $1,699,169 in connection with the acquisition, which was subsequently written off to expense.

NOTE 9-LOAN RECEIVABLE

On August 7, 2006, the Company loaned Diamond Ranch Foods, Ltd. $100,000. Per the terms of the loan agreement, the loan carries an interest rate of 7.5% per annum and has a maturity date of December 31, 2007. At the maturity date, the Company can elect to either convert the outstanding principal and interest due to restricted stock of Diamond Ranch Foods, Ltd. at a fixed price of $.10 per share, or have Diamond Ranch Foods, Ltd. make monthly payments of $5,000 per month for twenty months and issue the Company 200,000 restricted shares of stock to satisfy the interest amount.

NOTE 10-INTANGIBLE ASSETS

The Company has adopted the Financial Accounting Standards Board SFAS No., 142, "Goodwill and Other Intangible Assets." SFAS 142 requires, among other things, that companies no longer amortize goodwill, but instead test goodwill for impairment at least annually. In addition, SFAS 142 requires that the Company identify reporting units for the purposes of assessing potential future impairments of goodwill, reassess the useful lives of other existing recognized intangible assets, and cease amortization of intangible assets with an indefinite useful life. An intangible asset with an indefinite useful life should be tested for impairment in accordance with the guidance in SFAS 142.

Intangible Assets consisted of the following at July 31, 2007:

On December 20, 2006, the Company acquired U.S. Trademark Reg. No. 2,434,013 for the mark "Immune Boost". The Company has determined that the trademark has a useful life of fifteen years and is being amortized over that useful life.

On November 22, 2006, the Company, through its wholly-owned subsidiary Cinnergen, Inc. acquired the product rights of Cinnergen from NutraLab, Inc. In exchange for the product rights, the Company paid $100,000 and issued 1,000,000 shares of common stock valued at $170,000 to NutraLab, Inc. As part of the purchase agreement, the Company also assumed liabilities of NutraLab, Inc. of $955,826 that was offset by liabilities of the Company of $63,801 that was due to NutraLab, Inc. NOTE 10 -INTANGIBLE ASSETS (continued)

2008	467
2009	467
2010	467
2011	467

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION.

SPECIAL NOTE REGARDING FORWARD-LOOKING INFORMATION AND RISK FACTORS

Certain statements in this annual report constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements deal with our current plans, objectives, projections, expectations, assumptions, strategies, and future events. Words such as "may," "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates," "will," "should," "could," and variations of such words and similar expressions are intended to identify such forward-looking statements. Similarly, statements that describe our plans, our strengths and weaknesses and other information that is not historical information also are forward-looking statements.

Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements, expressed or implied by such forward-looking statements. Such factors include, among others, the following: general economic and business conditions, which will, among other things, impact the ability of the Company to implement its business strategy, and changes in, or failure to comply with, governmental regulations affecting health and nutriceutical products. These risk factors, among others, make investment in shares of the Company's common stock speculative and risky and should be carefully considered.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

THREE MONTHS ENDED JULY 31, 2007 AND 2006

SALES

Our revenues from operations for the three months ended July 31, 2007 were $321,474. Our revenues from operations for the three months ended July 31, 2006 were $500,979. We view this decrease as a temporary decrease that resulted when we switched in 2007 from being a distributor of Cinnergen to being a manufacturer. Our cost of sales was $93,467 in 2007.

RESEARCH AND DEVELOPMENT

During the three months ended July 31, 2007, we incurred research and development expenses of $21,508 Most of these expenses were from our two wholly-owned subsidiaries, Knock-Out Technologies, Inc. and MedElite, Inc. During the three months ended July 31, 2006, the Company incurred $13,205 in research and development expenses.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

A summary of our Selling, General and Administrative costs is as follows:

During the three months ended July 31, 2007, the Company incurred sales and marketing expenses of $88,359 compared to sales and marketing expenses of $907,314 during the three months ended July 31, 2006. The decrease in sales and marketing expense is primarily due to the ceasing of payments made pursuant to our distribution agreement with Nutralab in 2006 as we now are a manufacturer and not a distributor in 2007.

Cash and stock compensation were paid for consulting fees for outside directors, legal advisors and marketing consultants. The Company incurred $880,856 in consulting fees in 2007 compared to $515,000 in 2006.

General and administrative expenses decreased to $142,265 from $170,125.

LIQUIDITY AND CAPITAL RESOURCES

As of July 31, 2007, we had working capital of $2,931,144. As a result of our operating losses during the three months ended July 31, 2007, we generated a cash flow deficit of $384,947 from operating activities. We used cash flows in connection with financing activities of $369,500 during the three months ended July 31, 2007 We received proceeds of $259,500 from the sale of common stock, and received a capital contribution of $110,000.

By adjusting the Company's operations and development to the level of capitalization, management believes it has sufficient capital resources to meet projected cash flow deficits through the next twelve months. However, if thereafter we are not successful in generating sufficient liquidity from operations or in raising sufficient capital resources on terms acceptable to us, this could have a material adverse effect on our business, results of operations, liquidity and financial condition.

Our independent certified public accountants have stated in their report which is included as part of our audited financial statements for the fiscal years ended April 30, 2007 and 2006, that we have suffered recurring losses from operations , and this matter raise substantial doubt about our ability to continue as a going concern.

We have no off-balance sheet arrangements, special purpose entities, financing partnerships or guarantees.

ITEM 3. CONTROLS AND PROCEDURES

The Company's Chief Executive Officer and Chief Financial Officer are responsible for establishing and maintaining adequate internal control over financial reporting and disclosure controls and procedures for the Company.

(a) Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's Chief Executive Officer and its Chief Financial Officer of the effectiveness of the design and operation of the

(b) Changes in Internal Control Over Financial Reporting
